Experience

Alaska Airlines June 2017–Current

SeaTac, WA

Aircraft Routing/Maintenance Planning Analyst

Develop data automation tools for the Boeing and Airbus Planning and Routing teams. Manage integration and delivery of multiple web (Angular/Node.js), database (postgres, Microsoft SQL, Oracle) and internal applications (python, Node.js, Excel VBA). Work with stakeholders from Engineering, Materials, Scheduling, Vendor Maintenance, Ops, and Line Maintenance to build the heavy and midrange maintenance schedule.

Automatic Software November 2016–June 2017

Bellevue, WA

Sales Data Analyst Intern

Worked with SDRs to develop cold and MQL accounts to increase productivity by automating analytical tasks using Node.js and APIs to gather data from RainKing, Salesforce, Owler, and LinkedIn.

QBSI a Xerox company April 2016–November 2016

Bellevue, WA

Professional Service Intern

Articulated Xerox solutions to C-level decision makers through thousands of strategic cold and warm calls to discover opportunities valuing over \$70,000 in revenue.

Alaska Airlines June 2016–September 2016

SeaTac, WA

Vendor Maintenance Analyst Intern

Developed daily automated analytics tools and databases management scripts to increase productivity for Maintenance Planner by 10% using Tableau, TRAX, VBA, TOAD, R, Microsoft SQL Server, SSRS

Springboard Vacations June 2014–2016

Redondo Beach, CA

Data Engineer Intern

Implemented sales inventory automation management system and sales reservation from building sales order to generating dynamical produced websites. (PHP, SQL, Javascript, Angular, Bootstrap, Firebase, and Node.js)

Leadership

Alaska Airlines Developing Emerging Leaders, Project Manager (Current)

Direct timeline and deliverables for the consolidation of ATC delays to customers between current Airbus and Boeing processes for a team of seven employees from across the company. Self development with opportunities to build perspectives across the company.

Husky Sales Club, Brand Ambassador

Was mentored as a sales manager at local tech companies including AWS, Netscout, CA technologies, and QBSI Xerox. Worked with other club leadership to manage events meetings and recruitment.

Alpha Sigma Phi, Sergeant-at-Arms

BSA Troop 873, Eagle Scout of America
